## 1. Medicare Fungal Nail Pen

Contains  
Urea &  
Lactic Acid

Code: FTMEDO41

Price: €15.96

Medicare Fungal Nail Pen is a medical device that is used for fungal nail treatment. It improves the appearance of the nail & reduces discolouration.

- Clinically proven formula
- Results within 2 weeks\*
- Stops fungal growth
- Easy brush applicator

\*Clinical study showed that 77% of patients had results within 2 weeks. 88% of patients had results within 4 weeks.

### Instructions for use

For optimal results, use daily until the healthy nail has grown out.

## 2. Medicare FungeX Fungal Nail Plaster

*Coming Soon*

Medicare FungeX Fungal Nail Plasters are an innovative medical device which provide effective treatment for nail fungus. They also provide excellent moisturising effects, promote the improved appearance of discoloured and deformed nails, gently smooths the outer layers of the nail plate, and prevents the re-growth of fungal infection by changing the nail's micro-environment.

- Treats nail fungus and discoloured, deformed nails
- Comfortable & easy application
- Easy and precise spot-on application
- Prevents the re-growth of fungal infection
- 30% faster growth of the nail
- Apply only once a day
- Visible results within 2 weeks

### Instructions for use

Apply a plaster once daily, and leave on the affected area for 8 hours for the best results (ideally at bedtime).

### 3. Medicare Wart & Verruca Cryotherapy Pen 2ml

*Coming Soon*

Medicare Wart & Verruca Cryotherapy Pen is a cryosurgical product for the treatment of warts and verrucas on the hands and feet. The pen immediately freezes the wart during treatment. A single application of the cryotherapy pen is sufficient to treat the concerned area.

- Freezes warts & verrucas to the core
- Begins to work from the first use
- Easy to use application pen
- Visible results within 2 weeks
- Suitable from 4+ years

#### Instructions for use

1. Place the round opening of the applicator cap directly over the affected area and hold the dispenser at a 30° angle for the treatment to be most effective.
2. Press the bottom of the applicator firmly with the thumb to dispense once.
3. Repeat this up to 5 times depending on the size of the wart/verruca.
4. Hold the applicator in place for 10 seconds before removing it from the skin.

### 4. Medicare Wart & Verruca Removal Pen

**Contains  
salicylic acid**

*Coming Soon*

Medicare Wart & Verruca Removal Pen is a medical device for the treatment of warts and verrucas. The active ingredient, salicylic acid, breaks down the wart causing it to gradually peel off. The solution also forms a mechanical barrier preventing the wart or verruca virus from spreading.

- Quick and easy application
- Results after 1-2 weeks
- No plasters needed
- Contains salicylic acid to break down warts and verrucas

#### Instructions for use

Soak the affected area in warm water for 5 minutes and dry thoroughly. Twist the top of the pen slowly and gently apply gel to the whole surface of the wart or verruca.

## 1. Medicare Hydrocolloid Blister Plasters

### ASSORTED

Code: PLAMED104

Price: €6.95

Pack of 6

OR

### ONE-SIZE

Code: PLAMED103

Price: €6.50

Pack of 6

Medicare Hydrocolloid Plasters provide the latest technology in moist wound healing where the blister is protected from dirt and bacteria which encourages faster healing. The plasters absorb moisture and form a protective second skin to instantly relieve pain and provide the optimum healing conditions for foot blisters.

- Immediate pain relief and prevents blisters forming and heals already formed blisters
- Faster healing time due to moist environment
- Excellent adhesion facilitates long wear
- Protects against bacteria which prevents infection
- Provides cushioning and protection against further friction and irritation
- Waterproof
- Breathable
- Hypoallergenic
- Latex free

Available as  
Assorted or  
One-Size

#### Instructions for use

1. Clean and dry skin before use, ensuring blister area is free of creams and oils.
2. Take the plaster out of the wrapper.
3. Remove the protective paper from the plaster, avoiding touching the adhesive side.
4. Apply plaster firmly over blister, ensuring the edges are well smoothed down.

## 2. Medicare Moleskin Padding

Code: FTMED011

Price: €4.39

Pack of 2

Medicare Moleskin Padding immediately relieves the discomfort caused by friction and rubbing. The protective pad can be cut to size, to suit any part of your feet or shoes. Backed with an adhesive to secure the moleskin to desired area.

- Immediate relief from friction and rubbing
- Ideal for sore spots, corns, calluses bunions and foot blister care and relief
- May also be used to protect the heel in cases of Haglund's deformity or with heel blisters
- Soft, durable fabric
- Can be used as is or cut to fit tender areas
- May be used on the forefoot, toes or heel

### Instructions for use

Cut the moleskin to the required shape and remove backing paper. Apply and press firmly to ensure moleskin is securely attached. In case of broken skin, apply over first aid dressing.

## 3. Medicare Pressure Point Padding

Code: FTMED017

Price: €2.66

Pack of 6

Medicare Pressure Point Foam Padding reduces pressure and friction on any part of the foot and relieves pain immediately. The unique hypoallergenic materials ensure its suitability for sensitive skin.

- Reduces pressure and friction on any part of the foot
- Can be cut to suit any part of the foot or shoe
- Ultra soft foam material
- Hypoallergenic
- Particularly useful for sports footwear

### Instructions for use

Cut the foam to the required shape and remove the backing paper. Apply the padding and press it firmly to ensure foam is securely attached. In case of broken skin, apply over first aid dressing.

## 1. Medicare Hydrocolloid Corn Plasters

Code: FTMEDO27

Price: €4.73

Pack of 6

Medicare Hydrocolloid Corn Plasters provide the latest technology in moist wound healing where the corn is protected from further friction and pressure which encourages faster healing. The plasters absorb moisture and form a protective second skin to instantly relieve pain and provide the optimum healing conditions for corns.

- Faster healing time due to moist environment
- Immediate pain and pressure relief
- Waterproof
- Breathable
- Latex free
- Excellent adhesion facilitates long wear

### Instructions for use

Apply a plaster over the corn and leave for as long as it permits. Re-apply afterwards if required.

## 2. Medicare Corn Removal Plasters

Contains  
salicylic acid

Code: FTMEDO39

Price: €5.99

Pack of 8

Medicare Corn Removal Plasters with Salicylic Acid protects against painful pressure of corns and skin callous. The active ingredient, salicylic acid, helps break down the corn causing it to gradually peel off.

- Provides support for safe and effective removal of corns
- Contains salicylic acid which breaks down hard skin and reduces swelling
- Excellent adhesion
- Once-a-day application
- Instant pressure relief
- Suitable from 16+ years

### Instructions for use

Wear each plaster for a maximum of 24 hours. Do not use the corn plasters for longer than 10-14 days.

### 3. Medicare Corn Cushions

Code: FTMEDO13

Price: €3.12

Pack of 9

Medicare Corn Cushions ease painful shoe pressure and friction on corns or other painful areas, and help relieve discomfort and pain caused by rubbing, immediately. Medicare Corn Cushions have an optimum shape that makes the cushion suitable for both soft and hard corns. Designed for use on individual toes, these corn cushions ensure comfort throughout your day.

- Maximum pain relief and long lasting protection
- Prevents pressure and friction
- Dual layer for extra soft cushioning
- Specially designed for use on individual toes
- Ultra-soft, self-stick, waterproof foam

#### Instructions for use

Apply a cushion over the corn for as long as it permits. Reapply afterwards if required.

### 4. Medicare Foam Inter Digital Protectors

Code: FTMEDO20

Price: €2.66

Pack of 9

Medicare Foam Inter-Digital Protectors help to reduce pressure and friction between your toes while providing superior cushioning, protection and pain relief. These toe protectors are fantastic for the treatment and prevention of common foot problems such as corns where toe protection is important to ensure that the condition does not worsen. Made from softening and cushioning materials, Medicare Foam Inter-Digital Protectors will help you step with comfort.

- Cushions and protects corns, calluses, hammer toes and bunions
- Easy to compress, enhancing comfort in shoe
- Ultra-soft foam material
- Discreet nude colour

#### Instructions for use

Place soft gel separators in between affected toes. Can be worn on loosely fitting shoes.

## 5. Medicare Callous Pads

Code: FTMED023

Price: €2.66

Pack of 4

Medicare Callous Pads provide protection for calluses, warts and other painful areas of the feet. The Medicare Callous Pads provide a barrier between skin and foot, reducing friction and pain.

- Protects against painful pressure
- Especially suitable to protect calloused skin from pressure
- Relieves pain immediately
- Skin friendly
- Ultra-soft foam material

### Instructions for use

Press the felt ring onto the affected skin so that the pressure sensitive area lies in the middle of the ring. Wear for as long as the pod permits. Reapply afterwards if required.

## 1. Medicare Silicone Bunion Protectors

Code: FTMED026

Price: €4.46

Pack of 2

Medicare Silicone Bunion Protectors provides rapid pain relief by reducing pressure and friction on painful bunions. Ideal for on-the-spot relief during those long days at work. Perfect for patients who are unable to undergo bunion surgery and wish to wear enclosed shoes.

- Provide relief for painful bunions
- Durable and lasts for months
- Latex free
- Thin design fits most shoes

### Instructions for use

Place centrally over bunion, adhesive next to skin. Press protector against skin to ensure it is securely attached. Socks help hold the pad in place.

## 2. Medicare Bunion Protectors

Code: FTMED010

Price: €3.12

Pack of 4

Medicare Bunion Protectors are optimum cushioned bunion protectors that help to prevent pressure and friction. They are discreet and ideal for use with close fitting footwear and its dual layer pad helps to relieve pressure that may cause bunions to be painful. Medicare Bunion Protectors conform to the toe area giving all day comfort and provide soft foam support, designed to protect enlarged joints and bunions.

- Relief and protection for painful bunions
- Super-soft foam
- Prevents rubbing and friction and relieves pain immediately
- Also suitable for corns, callouses and any other sore or tender areas on feet

### Instructions for use

Place centrally over bunion, adhesive next to skin. Press protector against skin to ensure it is securely attached. Use with socks for improved adherence.

### 3. Medicare Bunion Protector Sleeves

Code: FTMED042/3

Price: €15.25

1 pair (includes washing bag)

Medicare Bunion Protector Sleeves consist of superior cushioning that provides instant and all day relief from rubbing and pressure on painful bunions. Thin and light, the protector is comfortable to wear with any shoe.

- Protects and absorbs against friction
- Can be worn every day in any shoe
- Thinnest and most efficient protection
- Available in sizes S-M (-O42) and M-L (-O43)

#### Instructions for use

Ensure that feet are clean and dry. Place the protector loop over the big toe, ensuring the gel pad protector fits comfortably over the tender area.

## 1. Medicare Comfort Insoles

Code: FTMED019

Price: €4.07

1 pair

Medicare Comfort Insoles provide every day comfort and cushioning for tired feet. Made from a specially developed foam with excellent shock-absorbing properties, Medicare Comfort Insoles heel cushions gently lift and cradle your heel, giving you welcome comfort and pain relief.

- Reduce pain and discomfort
- Useful for podiatry problems such as arthritis, weak arches and ball of foot pain
- Useful to prevent and treat sport injuries such as runner's knee, tibial band friction syndrome and bone stress reactions
- Soft foam material for extra comfort
- Full length- can be cut to suit all foot sizes
- Highly durable, washable

### Instructions for use

Use sharp scissors to trim to size according to the your foot size. Place in footwear with the foam side down.

## 2. Medicare Ball of Foot Cushions

Code: FTMED024

Price: €3.84

Pack of 2

Medicare Ball of Foot Cushions provide added comfort for the ball of the foot, relieving pain-causing pressure and friction. Pain in the metatarsal region is common, and can be caused by arthritis, a ligament tear or people who are on their feet for prolonged periods of time.

- Relieves pressure and friction
- Absorb painful shocks and helps reduce burning sensations
- Clear and discreet, ideal for use in open toed sandals and fits discreetly in shoes
- Extra soft gel for added comfort and cushioning

### Instructions for use

Apply a cushion right behind the ball of the foot to release pressure on this area.

### 3. Medicare Arch Support

**Medicare Arch Support** balances the pressure in your feet through an advanced cushioned support, for flat feet, weak or fallen arches. Optimum relief from foot strain and tired aching feet can be achieved with these non-slip, discreet inserts. Medicare Arch Supports are special orthotic devices that are customised to control the way the foot functions and correct biomechanical imbalance.

Code: FTMED025

Price: €4.70

1 pair

- Cushions and protects
- Maximum relief from foot strain and tired arching feet
- Ideal for flat feet and weak or fallen longitudinal arches
- $\frac{3}{4}$  length design, which comfortably fits shoes without crowding and allows toes to move freely

#### Instructions for use

Place the arch support inside the heel of your shoe. Allow your feet some time to adapt to the arch support. During the adjustment period, it's also quite normal if you feel some minor aches or discomfort.

## 1. Medicare Foam Toe Separators Assorted

Code: FTMEDO14

Price: €2.66

Pack of 6

Medicare Foam Toe Separators Assorted help prevent the overlapping of toes and the formation of in-growing toenails, whilst also providing immediate relief from pain and soreness between toes. There are several conditions that require the use of toe separators, most involving toes that are in an awkward or uncomfortable position.

- Alleviates pressure and friction caused by painful corns and blisters
- Provides immediate relief from crooked or overlapping toes
- Ultra-soft, washable foam
- Reusable
- Can be trimmed to conform to the wearer's unique toe structure

### Instructions for use

Use sharp scissors to trim to size according to your toe size, if required. Place in between toes to provide relief from soreness or pain.

## 2. Medicare Gel Toe Separators

Code: FTMEDO15

Price: €4.11

Pack of 2

Medicare Gel Toe Separators are made from an ultra-soft gel and provide soothing relief from pain and discomfort caused by corns or blisters between the toes. The soft gel material expertly decrease friction and irritation and whilst retaining moisture allowing irritated toes to heal quicker.

- Reduce friction and rubbing on adjacent toes
- Also helpful in correct overlapping toes and preventing in-growing toenails
- Shaped gel padding softens, smooths and protects skin
- Hand washable
- Clear and discreet soft gel material

### Instructions for use

Place soft gel separators in between affected toes. Can be worn on loosely fitting shoes.

### 3. Medicare Foam Toe Foam Protector

Code: FTMEDO37/8

Price: €3.48

Pack of 2

Medicare Toe Protectors help protect and cushion tender areas on toes, preventing and relieving blisters, corns, calluses and bunions from tight shoes and painful footwear. Medicare Toe Protectors are perfect for assisting in the support and realignment of toes. Made from softening and cushioning materials, these toe care products will help you step with comfort.

- Toe protectors for corns and sore toes
- Ideal for reducing pressure and friction
- Realigns toes
- Maximum comfort with soft foam
- Available in Small (-O38) & Large (-O37) sizes

#### Instructions for use

Slip the toe protector over toe, and if needed, carefully trim with sharp scissors. To allow skin to breathe, do not wear for more than 16 hours continuously.

### 4. Medicare Toe & Finger Tubular Gel Protector

Code: FTMEDO21

Price: €4.70

Pack of 2

Medicare Toe and Finger Tubular Gel Protector protects against friction and inter-digital corns and calluses, hammer toes, and other conditions. Made from a specially developed gel with excellent cushioning properties, the Medicare Toe and Finger Tubular Gel Protector gently cradles your toe, giving you welcome comfort and relief.

- Protect sensitive areas from rubbing and irritation
- Soft gel provides extra comfort
- Circular toe cushions gently cradle your toe
- Fits like a sock on the toe, providing protection without limiting mobility
- Nude colour

#### Instructions for use

Slip the gel protector onto the affected toe or finger.

### 5. Medicare Assorted Circular Foam Toe Cushions

Code: FTMEDO31

Price: €2.95

Pack of 5

Medicare Assorted Circular Foam Toe Cushions relieve the pressure caused by sore toes, blisters and other similar conditions. These assorted toe cushions are ideal for helping to reduce pain and discomfort caused by podiatry problems. Made from a specially developed foam with excellent shock-absorbing properties, these circular toe cushions gently cradle your toe, giving you welcome comfort and relief.

- Ideal for helping to reduce pain and discomfort caused by podiatry problems
- Protect sensitive areas from rubbing and irritation
- Soft foam provides extra comfort
- Circular toe cushions gently cradle your toe

#### Instructions for use

Slip the appropriate sized cushion onto the affected toe.

### 6. Medicare Toe Gel Spreader

Code: FTMEDO22

Price: €4.70

Pack of 1

Medicare Gel Toe Spreaders are made of a soft silicone material that comfortably fits between the first and second toes to help reduce friction and maintain alignment. The soft silicone gel conforms to the shape of your foot for a custom-like fit. The hypoallergenic, diabetic-friendly design will not irritate your feet and provides a superior cushioning.

- Cushiony gel shield reduces friction and irritation between toes
- Silicone gel conforms to your foot for custom-like fit
- Straightens and re-align toes
- Minimise bunion pain and friction as you walk

#### Instructions for use

Place the toe spreader in between toes and readjust as necessary.

## 1. Medicare Toenail Scissors

Code: PLAMED115

Price: €5.01

Pack of 1

Medicare Toenail Scissors are a stainless steel toenail scissors featuring sharp, strong cutting blades perfect for cutting thick toenails and ensuring long lasting use. Cutting your toenails properly is an important step in preventing painful ingrown toenails — a condition when nails curve and grow into the skin, which often leads to pain and sometimes to infection.

- 100% stainless steel
- Ideal for cutting toenails and fingernails
- Sharp, strong cutting blades
- Perfect performance tool to trim with ultra-precision

### Instructions for use

Firmly grip the scissors and trim toenails with care, ideally after bathing or showering when toenails are soft and clean. Always leave some nail length and never over trim toenails. Wash after use, dry with a towel and store safely.

## 2. Medicare Straight Cuticle Scissors

Code: FTMED032

Price: €5.75

Pack of 1

Medicare Straight Cuticle Scissors are a stainless steel pair of scissors that can be used to remove excess cuticle skin that has been gently pushed back off the nail with a hoof stick. Cuticles are the waterproof barrier between your nail and finger that protect the nails and surrounding skin from infection.

- 100% stainless steel
- Sharp, strong cutting blades perfect for precise cuticle trimming and long lasting use
- Straight blades for use with either hand

### Instructions for use

Use the scissors to remove excess cuticle. It is important to note that a healthy cuticle should never be entirely removed. Wash after use, dry with a towel and store safely.

### 3. Medicare Toenail Clippers

Code: FTMED029

Price: €3.98

Pack of 1

**Medicare Toenail Clippers** are chrome plated toenail clippers featuring sharp, strong cutting blades perfect for cutting thick toenails and ensuring long lasting use. Cutting your toenails properly is an important step in preventing painful ingrown toenails — a condition when nails curve and grow into the skin, which often leads to pain and sometimes to infection.

- Chrome plated
- Ideal for cutting toenails and fingernails
- Sharp, strong cutting blades perfect for precise toenail cutting

#### Instructions for use

Trim toenails with care, ideally after bathing or showering when toenails are soft and clean. Always leave some nail length and never over trim toenails. Wash after use, dry with a towel and store safely.

### 4. Medicare Cuticle Clippers

Code: FTMED030

Price: €5.75

Pack of 1

**Medicare Cuticle Clippers** are stainless steel clippers that can be used to remove excess cuticle skin that has been gently pushed back off the nail with a hoof stick. This will highlight any dead skin which should be carefully removed with the clippers. Cuticles are the waterproof barrier between your nail and finger that protect the nails and surrounding skin from infection.

- 100% stainless steel
- Sharp, strong cutting blades perfect for precise cuticle trimming and long lasting use
- Built-in spring for extra control

#### Instructions for use

Use the scissors to remove excess cuticle. It is important to note that a healthy cuticle should never be entirely removed. Wash after use, dry with a towel and store safely.

### 5. Medicare Smoothing Foot File

Code: FTMED036

Price: €4.87

Pack of 1

Medicare Smoothing Foot File removes rough, dry skin, leaving feet beautifully soft and smooth. If used regularly it can prevent the build up of hard skin. A safe and gentle way to remove dead and hard calloused skin, while exfoliating and rejuvenating your feet.

- Prevents build up of hard skin
- Double sided: the course surface removes rough, dry skin while the finer surface buffs and refines skin for a smooth finish.

#### Instructions for use

Ensure feet are clean and dry. Use file as desired to remove rough, dry skin and buff skin silky smooth. Always follow exfoliation and moisturisation to protect the skin on your feet from drying out.

### 6. Medicare Pumice Stone With Handle

Code: FTMED033

Price: €5.75

Pack of 1

Medicare Pumice Stone with Handle is designed to gently reduce and smooth roughened skin. The pumice sloughs off tough, dry skin and dead skin cells, from the feet. A pumice can also be used gently on hardened skin at the elbows and knees. Regular use of a pumice stone improves the appearance of the skin and relieves discomfort caused by calluses.

- Reduces roughened skin
- Suitable for use on feet, knees and elbows
- Convenient handle allows for easier movement of stone

#### Instructions for use

The pumice stone on wet or dry skin, but for best results soften the skin by soaking in warm water. Hold the pumice stone by the handle and use a circular motion to gently buff away the dry skin. After use, wash the pumice stone with warm water and leave to dry naturally.
