Blood Pressure

SECTION B

J.V. HEALTHCARE

1. Medicare A2 Plus Blood Pressure Monitor

Code: MEDMED137

Price: €49.95

The Medicare A2 Plus Blood Pressure Monitor will measure your systolic and diastolic blood pressure as well as your heart rate. This easy to use home monitor uses a comfortable upper arm cuff and all your results can be conveniently read in the LCD panel at the front of the monitor. Reliable, accurate blood pressure monitors guarantee peace of mind when you need to keep a close check on your blood pressure.

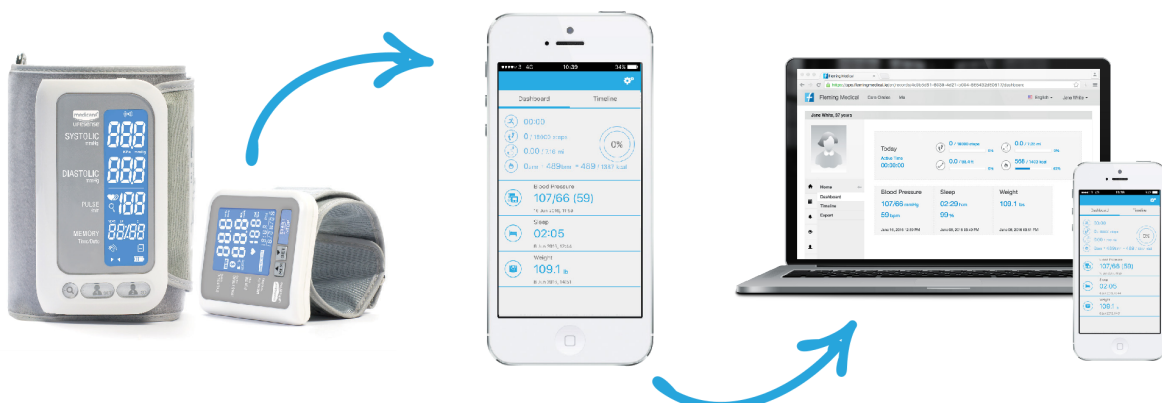

- Easy to read wide angle display
- Compact design
- Cuff range 23 - 33cm (9 - 13in)
- Irregular heart beat detection
- 3 users
- 40 memories per user
- Automatically averages last 3 measurements
- Comes with 4 x AAA batteries, arm cuff with tube, instruction manual and storage pouch

Instructions for use

1. Sit in a chair and make sure you are relaxed. Place both feet flat on the floor.
2. Roll up your sleeve to expose the skin and apply the cuff to your left arm with your palm facing up. Fasten the cuff 2-3cm above your elbow.
3. Connect the air tube from the cuff to the device and press the start button.
4. Once the device has stopped, your results will be displayed on the screen. Use with the Medicare Lifesense app, available on the App Store and Google Play.

1. Medicare V1 Compressor Nebuliser

Code: MEDMED103

Price: €83.26

Medicare V1 Compressor Nebuliser is a robust nebuliser, ideal for home based, frequent use by adults or children. This highly effective nebuliser combines a short inhalation time with intelligent medication delivery thanks to its powerful compressor. The compressor generates a stream of compressed air which breaks up liquid medication and converts it into a mist so it can be easily and more effectively inhaled by the patient through the mask, nosepiece or mouthpiece.

- Suitable for people with respiratory illnesses like asthma, COPD & cystic fibrosis
- Easy to use
- Short inhalation time
- Accessories included:
 - Atomiser x 1
 - Mouthpiece x 1
 - Connecting Tube (1.5m) x 1
 - Adult Mask x 1
 - Child Mask x 1
 - Nosepiece x 1
 - Filters x 10

Instructions for use

1. *Fill in the Medication*

Lift the mouthpiece from the medicine cup and unscrew the medicine cup upper shell. Fill in the correct amount of prescribed medication in the medicine cup bottom shell and screw the medicine cup upper shell to the medicine cup bottom shell, clockwise until securely closed.

2. *Assemble the inhalation accessories & air tube*

Assemble the mask, nosepiece (optional), mouthpiece and airtube as instructed in the patient leaflet.

3. *Delivery of medicine*

Turn the unit on and inhale the medication as instructed by your physician, using either one of the inhalation accessories.

4. *Cleaning*

Remove the inhalation accessory from the medicine cup and gently screw off the medicine cup upper shell to discard of the remaining medication. Wash the parts sufficiently with water and leave to air-dry.

2. Medicare V2 Portable Nebuliser

Code: MEDMED134

Price: €119.14

The new and improved **Medicare V2 Portable Nebuliser** allows you to comfortably deliver medication discreetly and on the go. Its compact size fits comfortably in the palm of your hand but is still powerful enough to effectively deliver needed medication for respiratory conditions like a simple cough, asthma, COPD and cystic fibrosis.

- Innovative u-shaped medicine cup ensures that medication is used thoroughly, and can be used at any angle
- Fast inhalation time: $\geq 2\text{ml/min}$
- Ultra fine particle size: $1\text{-}5\mu\text{m}$ which helps to penetrate deeper into the affected area
- Compact & discreet - ambient noise: $\leq 35\text{dB}$
- Made with stainless steel: Ensures quality & longevity
- One-click disassembly of medicine cup: Easy to clean and disinfect
- Mask and mouthpiece included
- Dual power supply: battery & USB Cable
- Power saving: Auto shut-off after nebulisation
- Includes convenient carry case & accessories *
AA Batteries

Instructions for use

1. *Fill in the Medication*

Open the medicine cup and fill in the correct amount of prescribed medication. Close the medicine cup cover tightly.

2. *Assemble the inhalation accessories*

Assemble inhalation mask or mouthpiece - the inhalation mask is recommended when the unit is used by children < 5 years.

3. *Delivery of medicine*

Turn the unit on and inhale the medication as instructed by your physician, using either one of the inhalation accessories.

4. *Cleaning*

Remove the inhalation accessory from the medicine cup and discard of the remaining medication. Wash the parts sufficiently with water and leave to air-dry.

3. Medicare Cirrus Humidifier

Code: TLTMED006

Price: €57.75

Instructions for use

1. Take out the water tank.
2. Turn the water tank up-side down, open the tank cap and fill the water tank with water.
3. Replace the water tank.
4. Add 2-3 drops of essential oil on the aroma pallet. Plug in the power cord and turn on the switch.

Medicare Cirrus Humidifier removes dust and indoor air pollutants from around the home, office, spa and more to create clean and hygienic air. Using the aromatherapy tray the humidifier can also release a host of rejuvenating and soothing fragrance that refreshes and improves the indoor air quality and ambiance of any space.

- Suitable for babies and young children
- Creates a healthy environment at home or the office
- Eliminates dust, toxins, bacteria, and allergens from the air
- Removes unpleasant odors and smoke
- Compact multi-color LED light display to help create a soothing and relaxing atmosphere
- Area coverage of 10-25m²
- Capacity 1.7L
- 7 hour run time

Indications:

- Asthma/COPD
- Allergens
- Respiratory problems
- Nosebleeds
- Sinuses
- Dry skin

Benefits:

- Improves quality of sleep by helping to reduce snoring
- Lowers the risk of catching colds and flus & helps speed up recovery when you are sick
- Reduces the occurrence of dried out, flaked itchy skin and lips
- Relieves allergy flare ups and hay fever symptoms
- Reduces asthma triggers
- Prevents headaches and sinus congestion
- Improves appearance of your skin

1. Medicare femSense Ovulation Tracker

Code: MEDMED136

Price: €24.95

Medicare femSense Ovulation Tracker patch measures your body temperature 24/7 during your fertile window. The algorithm interprets the temperature measurements and the app gives you daily updates on your fertility status. The app tells you which days you are most likely to get pregnant and notifies you when ovulation has occurred. The disposable temperature patch is worn under the arm for a period of up to 7 days when a woman is most fertile, during this time it continuously measures, records and analyses body temperature data. This data is then transferred from the patch to the phone when scanned using NFC (contactless).

- No more peeing on sticks
- Discreet and comfortable
- 24/7 temperature measurement
- 7 day measurement

It is not intended for diagnostic or therapeutic use and does not display temperature curves.

Instructions for use

Wear this 24/7 temperature patch during your fertile window to help detect ovulation. Use with the femSense app, available on the App Store and Google Play.
